

Birdie Num Num

Group golf, properly scored.

Live scoring, real handicaps, and every game your group loves — in one free app you add to your phone.

Every format you play

Stableford, match play, four-ball, skins and the Ryder-style trifecta — all scored automatically.

A live leaderboard

Standings update hole by hole. Share a live link and anyone can follow the round in real time.

Handicaps that keep themselves

A running WHS-style index built from your rounds (best 8 of 20) — or simply enter your own.

Know your game

A personal dashboard: scoring trends, greens, fairways, putts, scrambling and sand saves.

Every course, one library

Search and save any course. Your group shares a single clean, vetted course library.

Settle up, no math

Automatic Stableford, sixes and side-bet settlement — the money sorts itself out at the bar.

Built for the course

Installs like an app, works offline, and never loses a score to a dead signal.

Up and running in seconds

Create a game, share a six-digit code, and your whole group is in.
