

Birdie Num Num

CLUB EDITION

Live scoring, real handicaps, and every game your group loves — in one free app you add to your phone.

Every format you play

Stableford, stroke play, singles & four-ball match play, skins and the Ryder-style trifecta — all scored automatically, hole by hole.

Live, shared scoring

One keeper enters the group and standings update in real time. Share a live link and anyone can follow the round from the clubhouse.

Handicaps that keep themselves

A running WHS-style index — best 8 of your last 20 — with automatic course handicap and net scoring. Or simply enter your own.

Know your game

A personal dashboard: index and scoring trends, par-3/4/5 averages, fairways, greens, putts, scrambling and sand saves.

Every course, one library

Search and save any course into one shared library with per-tee yardages and stroke indexes. Spot a wrong number? Suggest a fix — an admin approves it for everyone.

Split costs, settle up

Track who paid and who owes, split evenly or custom, see every balance at a glance, and send a friendly nudge — no math at the bar.

Your club, organised

Invite by code or link, manage players and handicaps, and lean on an admin toolkit with a full score audit trail and oversight.

Built for the course

Installs like an app, works offline, never drops a score on a dead signal — and phone alerts keep the group in the loop.
